### AWARDS & RECOGNITION

## COPLEY PARTNERS & SERVICES

The Copley Consulting Group has the highest status and accreditation with two global, innovative software leaders, Infor and Qlik. With our nationwide team of consultants and strategic partners around the globe, we complement these transformative and modern platforms with value added services and product extensions. The Copley Team thoughtfully engages client operations with a professional staff that blend the requisite skills of industry experience, platform fluency, and an implementation methodology that reduces risk and organizational disruptions. Whether the solution is deployed in the cloud or on premises, our skilled team ensures you will make the right choice for the particular needs of your organization.

- Omega Engineering
- NEC Energy Solutions

## CUSTOMER TESTIMONIALS

*"With our previous system, we lacked the functionality necessary to automate our FDA validation requirements, which resulted in a time-consuming manual process. With Copley, we now have one system that handles all our business requirements, including our FDA requirement for data integrity as well as our documentation for GMP risk areas, which leads to an improvement in our overall business processes."*

— Sean Bauman, CEO at IMMY

*"Implementing Qlik with the help of Copley has allowed us to have a 'data scientist in a box' solution for the entire district. Previously we would struggle with identifying the type of help students would need to succeed. Now we have the potential to capitalize on the data to make a difference in our student's lives."*

— Rachel Johnson, Director, Information Management and Data Security, Loudoun County Public Schools

*The Copley Consulting Group is an experienced team that were more to us than just software consultants. We were able to accelerate the learning curve and avert potential pitfalls because of Copley."*

— Scott Bourget, Chief Financial Officer, Maine Machine Products, A Precinmac Company
